

Food Trucks Around the World

Subject: LA, Math,
Social Studies

Grade Level: 3-5

Concept: Economic
Concepts

Method: Problem-Based
Learning

OVERVIEW

Students will research a country and then prepare a dish from that country. Students will design and create a food truck where they will sell their food to the community. The proceeds can benefit local organizations.

Connection to Entrepreneurship: Students research different food cultures. They design and create a food truck to sell their country's food at a community event.
