

Global Inform Project

Subject: Social Studies **Grade Level:** 9-12

Concept: Entrepreneurial Process **Method:** Design Thinking

OVERVIEW

Students will be put in groups. Groups will choose a current “human rights violation” and inform the general public on the issues surrounding the violation. The task is to create awareness of the violation, because awareness (information) is the first step to taking action. The group must use technology and media resources to inform, and must create an “action plan” of what, where, when, how, and why you are going to use specific types of media to inform.
