

Cookie Crunch

Subject: Science, Math,
ELA

Grade Level: K-2

Concept: Economic
Concepts

Method: Facilitation &
Coaching

OVERVIEW

Students will learn how to make cookies. Students will work with other classrooms, the principal, and the lunchroom staff to create their cookies. Students will decide what cookies to make and package the cookies for sale. Students will then work with the principal to set up a day of the week to sell their products. The money from the sale would go towards field trips or things needed for the classroom.

Connection to Entrepreneurship: Students will decide what cookies to make and package the cookies for sale. Students will market their cookie product throughout the school.
